

BRIEF MENTION.

Middling cotton was selling yesterday at 11 cents.

The weather prophets scratch their heads and predict again.

Three new guano houses have just been erected at the depot.

The distemper is prevailing among the horses and mules in this section.

Rev. R. C. Ligon will preach at Robert's Church on next Sunday at 11 a. m.

There are nearly \$1000 in the Treasury of the town, and we need a town clock.

Mr. T. L. Clinckens, Jr., of middle Texas, is visiting relatives in this County.

Mr. A. Turner Moss slaughtered a 10-month-old porker Monday that netted 276 pounds.

Col. M. P. Tribble qualified as County Treasurer on last Saturday, and is now in charge of the office.

"Cotton factories and immigration is what Hampton County needs," - *Guardian*. And every other County in the South.

Don't lose sight of your newspaper account because it is small. The little things are the most important sometimes.

Wyman had an audience of less than a corporal's guard last Thursday evening, all of whom, we presume, had free tickets.

Mr. Dudley Reid and Miss Metta Brown were united in marriage on Wednesday evening 19th instant, Rev. John Attaway officiating.

Mr. Stephen McCully, the oldest male citizen of our town, and one most highly esteemed by all, has been quite feeble for a week or two.

The citizens of Williamson township are said to be paying their railroad tax more promptly than those of any other township in the County.

At a recent meeting of the Board of Trustees of Erskine College, Mr. John H. Miller, of Camden, Alabama, was elected Professor of Mathematics.

There are only five days more in which to pay the railroad taxes without the penalty of 20 per cent., the time expiring on Tuesday next.

The roads are improving a little, and business in town is looking up a bit. Fifty or sixty bales of cotton a day is now about the amount brought in.

Very few persons in town have yet made their tax returns to the Clerk of the Council, although next Monday is the last day. Save the penalty by being prompt.

Rev. L. W. Tribble performed the marriage ceremony of Mr. John N. Kay, of Abbeville county, and Miss Anna M. Guyton, of Anderson county, on the 10th inst.

The acreage sown in wheat in this County this winter is smaller than for many years past. The failure of the crop for the past few years has discouraged the farmers, it seems.

Bob Hutchison, a freight trainman on the Blue Ridge division, had the end of one of his fingers mashed off on Monday morning while coupling cars at the depot at this place.

There was a slight fall of snow nearly all over the State on Monday. In the middle counties the ground was slightly covered, while in the upper counties it disappeared as fast as it fell.

We direct attention to the advertisement of Messrs. McCully & Taylor, found elsewhere in this issue. The fertilizers for which they are agents are standard brands, and are sold on liberal terms.

Maj. George A. Wagener and wife, of Charleston, arrived in Anderson on Monday evening. Mrs. Wagener will spend a week with her parents, while the Major makes a short business visit to Atlanta, Ga.

A meeting of the Board of Directors of the Savannah Valley Railroad Company is held at this place to-day, at which they will probably give out the grading of twenty miles of the road in one or more contracts.

Mrs. Pinkind, one of the most accomplished music teachers in the State, has permanently located in Anderson, and will give lessons in instrumental music. She can be found at the residence of Rev. W. H. Strickland.

Professor Willoughby Reade will give one of his interesting readings in the Masonic Hall to-night for the benefit of the Baptist (river railroad) passenger fund. All who wish to spend a pleasant evening should be sure to attend.

Mr. Thos. F. Hill went down to Charleston last week, stood an examination in pharmacy, received a diploma, and came back a full fledged apothecary and pharmacist. He stood a creditable examination, and is still mixing medicines and rolling pills for William & White.

Mr. Josiah Cobb, an aged and respected citizen of the town, died at the residence of Mr. J. B. McGee, his son-in-law, Wednesday night of last week between 11 and 12 o'clock of a disease of the kidneys after an illness of two or three weeks. His remains were interred in the Presbyterian graveyard on Friday morning.

Some friend went to the marble yard of Mr. Samuel Murphy on Monday night and destroyed two large marble slabs worth a hundred dollars more. The man who would destroy his neighbor's property for spite deserves the severest punishment of the law. He is a base wretch who could find pleasure or satisfaction in such deeds.

Bettie Thomson, colored, aged 104 years, died in this County on the 20th inst. She was formerly a slave of Mrs. Rachael McCall, and a faithful member of Varennes Church for many years. She left one daughter, 9 grand children, 61 great-grand children and 49 great-great-grand children. She retained her consciousness to the last, something remarkable for one of her advanced years.

Every man should mind his own business, and only that. It is hard to tell him in plain words, yet it is one of the simplest rules of conduct, and the most useful that mankind can adopt in their intercourse with each other. There is a great deal of Paul Pry in the human heart, or wonderful inquisitiveness in regard to the personal and private affairs of friends and neighbors. This spirit makes more mischief in the community than almost any other cause, and creates more malice, envy and jealousy than can be overcome in a century. Let every man mind his own business and there will not be half the trouble in the world that there is at present.

The Union Times makes some timely and pertinent remarks in its last issue on the importance of school houses being made comfortable for the children who attend them. Children cannot study when they are cold and uncomfortable, and in many localities in this County, unless there have been great improvements made recently,

the houses used for schools are far from comfortable. The school law of the State makes it the duty of the trustees to see that the school houses in their districts are in good condition, and they could not do a work for which they would deserve more praise than for a strict compliance with this wise provision.

The schedule on the Columbia & Greenville Railroad has been changed so that the down passenger train passes Pendleton at 11.25 a. m., Anderson 11.00, Belton 11.00, and Honea 11.20 p. m. The up train passes Honea Path at 5 p. m., Belton 5.30, Anderson 6.31, and Pendleton 7.11. Going down it passes Williamston at 11.00 a. m. and up at 6.45 p. m. The Blue Ridge up freight passes Belton at 6.30 a. m., Anderson 7.30, and Pendleton 8.40. The down freight passes Pendleton at 2.30 p. m., Anderson 3.45, and arrives at Belton at 4.30. These changes afford rather better accommodations than the previous schedule. The return passenger trains will be continued between Anderson and Belton.

The Railroad Taxes.
Next Tuesday is the last day upon which the taxes due the Savannah Valley Railroad and the Atlantic and French Broad Valley Railroad can be paid without the penalty of 20 per cent. Persons who intend to pay without litigating had better do so within that time.

Hymeneal.

Hon. William E. Earle, for a number of years past a resident of Greenville and one of the most prominent lawyers of the 8th Circuit, who recently removed to Washington for the practice of his profession, and Mrs. Mary Orr Prevost, the youngest daughter of the late Governor James L. Orr, were married on Wednesday, the 12th inst., at the residence of Mr. W. C. Patterson, the brother-in-law of the bride, in Philadelphia. Mrs. Earle was a resident of Anderson, and had many friends and admirers here, who extend to Capt. Earle and his bride their congratulations, and wish for them, all of the happiness and success which the future can bestow.

Willoughby Reade.

This gentleman gave one of his humorous and entertaining readings to a crowded audience in Masonic Hall on last Tuesday evening. Mr. Reade is a fine reader, and throws a great deal of wit and enthusiasm into his work, whereby he renders his entertainments extremely interesting to his hearers. His audience was almost continually convulsed with laughter, except when he was rendering serious selections.

Mr. Reade loves his work, and has a decided talent for it. He will return to Anderson and give one more reading on Thursday night. This performance will be for the benefit of the Baptist parsonage fund, and those who attend will not only have a most pleasant evening, but will be doing good at the same time.

The Greely Institute.

The colored people of Anderson have done nobly in subscribing to the repair of their town school house the sum of about one hundred and seventy dollars. They are, of course, in limited circumstances, and these subscriptions from their small wages show they appreciate education and are willing to help in the work of educating their children. They have a considerable amount to raise yet to complete their building and furnish it, but they propose to do it themselves, and when finished the assistance of the white people will be solicited to keep the school open nine or ten months in the year with competent teachers. This assistance ought to be cheerfully rendered them, and we have no doubt it will be.

The French Broad Railroad.

The Board of Directors of the Atlantic and French Broad Valley Railroad Company held last Thursday. They determined to remove the convicts to Williamston or in the vicinity of the road, the section between Pickens and Easley being now nearly completed. They also, by resolution, decided to send Col. D. F. Bradley, one of the Directors, and Capt. Wm. J. Kirk, Chief Engineer and Superintendent, to Cincinnati and other points to represent the interest of the Road. These gentlemen will leave for Cincinnati in a short time. They propose working vigorously to accomplish the completion of their Road and secure direct through connection between Cincinnati and the Atlantic Coast. The Directors of this Company have shown great ability and energy in their work up to this time, and have proven eminently successful. They are now taking an important step, the result of which may prove very advantageous to the interests of the Road.

The following additional amounts have been paid by the subscribers of the town fund, for the last few months for the purpose of still further improving the Greely Institute building:

Amount reported heretofore \$137.05; J. Thomas, Sr., \$1, Randall Hampton \$1, Andrew White 10c, Seaborn Adams 50c, Chas. Brown 10c, Ben Guyton 25c, Harrison Smith 25c, Frank Jenkins 10c, E. H. OBITUARY.

Departed this life on Thursday, 20th inst., Little Azzie Gray, daughter of Mr. and Mrs. Samuel L. Gray, of Centerville Township, in the 8th year of her age. For several years she suffered from rheumatism, and was attacked with convulsions, and after two days' struggle with this terrible disease her gentle spirit returned to the God who calls all.

Sweet, gentle, amiable Annie, farewell! Alas! how changed that lovely flower which bloomed and cheered my heart. Fair, beaming comfort of an hour. How soon we're called to part!

The new Congressional Library building will cost about \$300,000, with shelving capacity for 2,500,000 volumes. It will be located in Judiciary Square.

The *Keweenaw* Courier of last week states that the revenue officers stationed at this place made a raid in Pickens County, and captured two illicit distilleries and destroyed 3,000 gallons of mash and beer. Again, on the 17th instant, they made another raid in Pickens County, near Bad Knob Mountain, and seized an illicit distillery, destroyed 2,000 gallons mash and beer, a hundred gallon copper and still and cap and 40 gallons distilled spirits. While engaged in destroying the same the officers were fired upon by the moonshiners.
